

## Grupo Fertiberia to acquire Fertimix to foster its sales of low-carbon sustainable crop solutions in Europe

- *The acquisition expands Grupo Fertiberia's international footprint into markets with high potential for development of sustainable high-value-added crop nutrition solutions*

Madrid, 23 November 2022

Grupo Fertiberia is taking another step in its strategy to grow its sales of sustainable innovative solutions, expanding its distribution capabilities to Benelux. Fertiberia, S.A., a subsidiary of Global Agrajes, S.L.U, has today entered into a definitive agreement to acquire Fertimix BV, a renowned wholesaler of fertilizers with highly efficient logistic assets in Belgium and the Netherlands.

Fertimix has a long tradition of reliably serving the needs of agricultural customers in the Netherlands and Belgium. The business operates two waterfront bulk terminals, one near Breda in the Netherlands and another one in Grobbendonk (Belgium). This logistic position allows Fertimix to efficiently serve not only customers in Benelux but also in Germany and South East Asia, thanks to efficient logistics from Rotterdam.

Fertimix will provide Grupo Fertiberia with a strong platform in European markets where it is expected to be a high demand for Fertiberia's low-carbon and other sustainable crop nutrition solutions. Upon completion of the acquisition, Grupo Fertiberia will count with incremental distribution capabilities in strategic markets to meet the increase in production of high-value added solutions.

The acquisition is expected to close in the first quarter of 2023, subject to the fulfilment of customary closing conditions, including regulatory approvals.
